Work Experiences

Molloy + Van Wert at Chestnut Park Real Estate Ltd / Media Coordinator

May 2022 – August 2024. Toronto, Canada

- Developed automated Excel reporting systems to track performance and market trends, improving management's access to data for strategy and marketing decisions.
- Designed and produced branding and promotional materials (mail campaigns, client updates) reaching 3,000+ clients.
- Directed and edited video content for social media, generating 60,000+ views and strengthening digital presence.
- Managed multi-platform social media accounts, achieving 116% growth in followers; proficient with tools including Mailchimp, Canva, and Google Sites.
- Expanded global reach by adapting marketing content for Mandarin-speaking audiences and launching on RedNote.
- Built digital infrastructure for data storage, modernizing decades of records into a usable database with Notion.

Integris Student Living / Community Ambassador

October 2021 - December 2021. Kingston, Canada

- Guided prospective clients through sales process by scheduling appointments, leading property tours, maintaining showrooms, and executing follow-up communications to secure leases.
- Supported multi-channel marketing initiatives on campus, in the community, and at events; utilized tools such as HubSpot, Hootsuite, and StrawPoll to boost engagement and visibility.

Bytedance Ltd / HR Intern

June 2021 - August 2021. Chengdu, China

- Drafted the team's half-year performance report, providing the first comprehensive version used by leadership to prepare the company's official publication.
- Screened and recommended candidate resumes, coordinated interviews, and managed communication between candidates and interviewers to ensure smooth hiring processes.
- Supported HR initiatives including employee relations, internal referrals, and training activities.
- Directed internal events such as quarterly reviews to strengthen engagement and communication across teams.

Research & Projects

Making Digital Romance a Reality: An Analysis of wěi tuō in China – Research Published on [GitHub](#).

March 2025. London, United Kingdom

- Researched and authored analysis on wěi tuō (paid otome roleplay dating) in China, examining how digital fantasies reshape offline intimacy, hybrid identity, and labor in platform capitalism.
- Presented comparative analysis of digital-physical hybridity (e.g., wěi tuō and Pokémon Go), highlighting implications for consumer behavior, digital labor, and the commodification of intimacy.

Kwansei Gakuin University / Corporate Consulting Student – Project Published on [GitHub](#).

May 2021 – Aug 2021. Nishinomiya, Japan

- Gained training in business analysis frameworks including SWOT and business plan development.
- Collaborated with Ricoh employees to design strategies for strengthening corporate culture among younger staff.
- Proposed a gamification-based approach to improve engagement and job satisfaction for Gen Z employees.
- Presented recommendations to Ricoh executives, earning *Best Presentation Award* for innovative solutions.
