- Influenced to HRBP initiatives by assessing needs across 5 business units, helping identify 20+ roles for future hiring.
- Streamlined recruitment by screening 200+ candidate resumes per day, coordinating 60+ interviews, and managing communications to ensure smooth hiring processes.
- Strengthened engagement by organizing 1 training program and quarterly review attended by 150+ employees.

Research & Projects

Making Digital Romance a Reality: An Analysis of wěi tuō in China – Research Published on [GitHub](#).

March 2025. London, United Kingdom

- Researched and authored analysis on wěi tuō (paid otome roleplay dating) in China, examining how digital fantasies reshape offline intimacy, hybrid identity, and labor in platform capitalism.
- Presented comparative analysis of digital-physical hybridity (e.g., wěi tuō and Pokémon Go), highlighting implications for consumer behavior, digital labor, and the commodification of intimacy.

Molloy + Van Wert Brand Book – Project Published on [Pub.Marq](#).

Sept. 2022 – Dec. 2022. Toronto, Canada

- Spearheaded the design, copywriting, data visualization, and visual layout of a comprehensive brand book for a real estate firm, managing everything from photo curation to formatting and orientation.
- Collaborated as a 3-person team to bring the book from concept to print, overseeing vendor communication, paper selection, and production details to ensure a professional final product.

Kwansei Gakuin University & Ricoh / Corporate Consulting Student – Project Published on [GitHub](#).

May 2021 – Aug 2021. Nishinomiya, Japan

- Gained training in business analysis frameworks including SWOT and business plan development.
- Proposed a gamification-based approach to improve engagement and job satisfaction for Gen Z employees.
- As team lead, presented proposal to Ricoh executives, earning *Best Presentation Award* for innovative solutions.
